

# **Instant CB Cash**

Thank you for buying this WSO.

I know you bought this WSO hoping to make money, right?

Well you're in luck.

I'm going to give you my secret blueprint to earning big cash from Clickbank.

Now, first of all, I am not going to teach you how to get your affiliate link, how to get setup, and how to join the Clickbank site.

This is way too much simple  
Information that you can could learn  
from a simple Google search.

Here is an articles that can help get  
you started on the basics of Clickbank.

<http://www.2createawebsite.com/money/clickbank-guide.html>

**Continue reading after you have  
your Clickbank account setup.**

Now, this WSO isn't some fad  
technique. This WSO actually isn't a  
SINGLE traffic source.

I'm giving you two separate online

traffic sources.

Understand that these two traffic sources are great not just for affiliate commissions, but also for making some good cash for your other sites.

I know what you're going through:

I just wanted to say that I used to be in your position. I would do as much as I can to get more and more sales on CB. I struggled because even though I would get ranked, it would either be for non-buyer keywords, or they would fall off the face of Google overnight.

In this WSO, you are getting my simple formulas for getting more Clickbank sales with no problem.

**How much time do I need to spend on this?**

You could spend an hour and still get results, but of course, if you put in more work, you can make even more money from it. But in my salts page, I said 50 minutes because my cousin Betty really did put in only 50 minutes.

**How much can I earn?**

Whatever you want to. I make

\$150/day from this, and obviously you could tell that my cousin literally now earns the same thing as me. I do have an outsourcer who does some of this for me today every once in awhile, so it's nice to have that extra income from CB.

**Is this WSO going to teach me about choosing a product and gravity?**

Small things like this are not discussed, because it has been taught a thousand times. I instead am teaching you the most important part....getting traffic.....

I don't want to fill this WSO with fluff

and basic Clickbank information, so let's just get started with it.

Grab that affiliate link of products you want to sell, and let's begin.

## **Q and A sites!**

Have you heard of these before  
Well, the only one you probably know about is Yahoo Answers, and that site is great, but there are still a bunch of other great traffic sources of the same nature that can get almost the same amount of traffic.

**Why do sites like Yahoo Answers work so well?**

Well, you're basically helping people out with their problems. When someone is dealing with problems, they need a solution. And a QandA site is a place to allow for you to help them find their solution through a product found from Clickbank.

Now, before you close this WSO, leave it in your hard drive, and think it's not going to work, listen up for a minute. This method works if you want an instant sale. It. Works.

I'll show you how I do it on this cool site called Blurt It. Head down to [www.blurtit.com](http://www.blurtit.com)

The site is pretty self explanatory.  
Sign up with your email, or through  
Facebook or Twitter.

When you sign up, you could search  
for questions in as many categories as  
you want.

You could sell Clickbank products  
here in the fitness niche, anxiety and  
depression niche, acne, and anything  
you want. Just look for the category.

If I wanted to find the questions on  
skin care to sell a skin care product on  
Clickbank or something. Here is what  
I do:

I would go to [blurtit.com/topics](http://blurtit.com/topics)

And I would go through the right side, and you'll see a bunch of great topics you can browse through.

You'll see that beauty has 3,331 questions and 19 subtopics. I would simply click on that, and then I would look on the right side again to look at all the subtopics. There are 400+ questions on skin care.

Now, all you have to do now is simply answer the questions giving them advice.

When you find a good question that fits into your topic, here is two things that I do:

**1) I LOOK AT THEIR QUESTION, AND I ONLY ANSWER IT ONLY IF I KNOW THERE IS A CLICKBANK PRODUCT FOR IT.**

For example, I saw this question....

"How do I remove black moles from my face?

Anonymous asked 5/24/2014 Edit Question"

And I am pretty sure there are some products on Clickbank about this.

And I answer it doing this:

I give them two or three tips that I found online, and I reply with at least 50-200+ words. Just write it fast, or you can just copy and paste something from Google. But just don't make it so long, and still include your own tips!

And at the end, I give them my affiliate link. Yup, you don't need to have a site. The problem with this is that they do remove affiliate links within 48-72hours.

There is a way, however, to fix this. You simply save the URL links of all

the answers you save....

Put them in a spreadsheet with the URL and then the affiliate link for the product right next to it so you know which product it is you're selling for that question. I sometimes like to have an outsourcer sign in to my account after I have personally answered 50+ questions, and the goal of the outsourcer is just to add in my affiliate link to all questions. This costs me usually just \$2-\$5 an hour.

You can always create a blogger blog or a Squidoo page and use that as a landing page instead of a straight affiliate link since they usually don't

remove those links. I've done all kinds of things in a lot of niches for this site, so consider testing it out yourself to see what niches fit you.

Tip: Create another account for you to ask random questions for. Use that account to ask questions with keyphrases that a lot of people will type in to Google. And since Blurtit is oftentimes sometimes good for ranking a question on Google, you can easily see some of your questions ranking on Google. The same goes for some of the other answer sites below. Reply back to it with an original account.

Tip#2- Understand that the following sites all follow the same concept of the site I decided to mainly talk about: Blurtit.com but the same rules apply for every single site. You still need to be cautious since you don't want to end up looking like a spammer.

## **How do you stop being a spammer?**

The way to being an ordinary person is to give real advice. In other words, DO NOT WRITE ABOUT some random topic and input your affiliate link. People know when you're only goal is to have them check out your product. Do not sell in your answers. Your goal should be to share info, and

to let them know that they could learn more along the way if they click on the link.

## Another Technique To Get Affiliate

## Commissions

Okay, so here is another cool strategy I shared with my cousin, and she really liked it because it was just so easy to use.

Have you ever heard of Slideshare? Slideshare is a great site that shares content. People go here to get all kinds of information.

Here is the fun part about this traffic source: **THE MORE COMPETITIVE YOUR INDUSTRY THE BETTER!**

It is not uncommon for some people to go into the fitness, diet, beauty, IM,

and/or acne niche; the hardest niches to be in, and then to succeed and still get sales.

The reason why this site works so well is because it has an estimated 70,000,000 views per month. Imagine if you got just a SMALL percentage of that people to buy your affiliate products from Clickbank.

How is this going to work?

Slideshare allows people to share content, and the best way for us to share content is through a PDF. Why? Because it is super simple and easy to

do, and you can actually input your affiliate links in this eBook.

The point of this simple strategy is to:

- 1) Create a short PDF report**
- 2) With Affiliate Links at the bottom**
- 3) Wait for affiliate commissions**

Let's get started with this:

- 1) Create A PDF
- 2) Input your affiliate links
- 3) Make affiliate links clickable
- 4) Submit PDF
- 5) Let the money flow in.....

- 1) Create a PDF

First of all, find a niche that you know is in demand, and one that people love reading about, and one that you have a solution to via a Clickbank product.

For this example, we'll go for a weight loss product.

Your goal when creating your first pdf is to head down to OpenOffice.

**You MUST HAVE AT LEAST 4-5 PAGES IN ORDER TO HAVE YOUR LINKS CLICKABLE FROM WITHIN THE PDF.**

But I hate writing content?

Simple.

You go online to use FREE  
CONTENT ARTICLES AS YOUR  
PDF.

<http://www.articlesbase.com/> has a lot  
of free articles you could use.

Get as many as you need to reach 4  
pages. Although usually just one or  
two articles is enough to reach four  
pages since you can separate the  
content.

Note: I Write my own content....why?  
Because I want to give values to the

readers. You don't want to be spammy in these eBooks. You want to give info. You want to share knowledge. You want to share information. Then and only then will people feel compelled to continue reading in your affiliate links.

Another note: Think of this PDF file as your landing page. Think of it as something free you're sharing to help develop that trust in you.

## Photos

You have the option to add in a nice photo for your presentation. You could find free images all over the Internet,

like Flickr or any graphic site/stock free image site, and then you can use that as your PDFs opening image. This is completely optional though, so don't worry about it if you want to.

Once you have reached the four pages, add in some anchor text links of your affiliate links and the products. Here is what you should know: if you gave information, people will gladly click on your affiliate links. Let them know they'll learn more when they click on the links.

Now, let's move on.

## 2) Input affiliate links

Simply add in your links, but you need to make them clickable. Make sure that you don't blatantly put in the affiliate links saying, "click here for more tips." No. You give them the info they were looking for, and you tell them saying, "I know these tips helped you out. I hope you get to etc etc. Want to know the #1 secret to etc etc? (affiliate link)?"

Anything along those lines should get them wanting to click on it. If it's a video salespage, it works great because you can always tell them, "Check this video I saw."

When you're done making the PDF, save it to your computer.

### 3) Make them clickable

You just need 4 pages or more to make it clickable. Make this a goal so that your links get clickable no matter what.

You're done!

The tough part is over....you only have to upload this onto your Slideshare account.

This is the easy part.

Sign up and then click on UPLOAD at the top right.

Attach your PDF file to it, write down all your info about the PDF. Don't forget to give some good keywords and the description about the PDF.

Writing the description

The goal should be to put yourself in their shoes. What would somebody in this niche have to read in order to feel compelled to research more about this topic?

You're officially done!

\*\*\*\*\*

You see, this eBook method works great, but the key really is knowing how to test it out.

Play around with all of the titles, keywords, and the descriptions. There is a search function that allows for others to find out.

You can expect 100+ views in as little as two days just from traffic alone.

Know that you can easily do this over and over again. You can put up as many PDF files as you want. The more you have up there, the more

money you could make.

Test. Test. Test.

Test out different niches, use different content, change up titles, and practice more on your copy.

\*\*\*\*\*

This eBook is finished, and all you have to do is take ACTION! You could get sales almost instantly when you use these two strategies. The key is to be patient, to work at it, and to just keep testing it out.

If you have questions or need any kind

of support, please email ALL
